Boost Controller Dual Injector Block

#3020004307

## Boost controller dual injector block

Use with FT600 / FT550 / FT500 / FT500LITE / FT450 integrated boost controller.

*included cushions kit (2 cushions, 2 washers and 4 nuts)*

Pressure Input: 1/8" NPT

Output to Wastegate: 1/8" NPT

Recommended injectors **(not included)**:

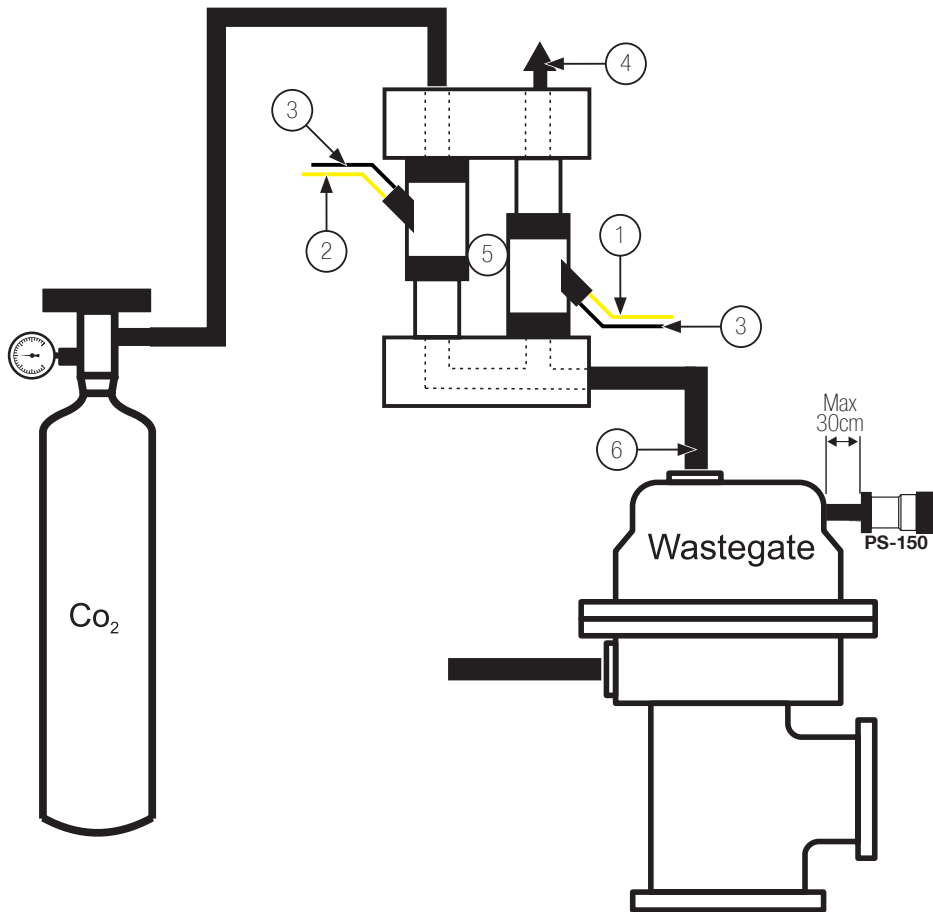

High impedance Bosch 1700 cc/min (165 lb/hr)

High impedance Bosch 2200 cc/min (210 lb/hr)

Wastegate pressure sensor (PS-150) is also needed for Power FT ECU integrated boost controller.

## Installation diagram

- 1 - Decrease solenoid/injector trigger – connected to the yellow output
- 2 - Increase solenoid/injector trigger – connected to the yellow output
- 3 - Negative
- 4 - Free air
- 5 - Injectors
- 6 - Control pressure Wastegate;
